

LINEAR LED STRIP

CabLite® Linear LED Strips provide high lumen output for elevator code compliant cab illumination, when used in overhead canopy, cove and perimeter lighting applications. Advantages include; low profile design, multiple fastening options and incremental lengths available up to 12'. This versatile design is perfectly suited for hoist ways, car tops, pit, hall lanterns, controller cabinets, moving walks and numerous other uses.

THE LINEAR LED STRIP ADVANTAGE

- **Certified Elevator Product**, CSA compliant, TUV listed, meets all ASME A17.1 code requirements for general and emergency lighting.
- **Code Compliant Light Levels**, two properly mounted 4' strips provide elevator code compliant light levels in canopy or cove lighting applications.
- **Energy Efficient** LED lighting specifically designed for 24/7 continuous use.
- **Eco-Friendly**, recyclable, hazardous waste free.
- **Self - Contained, Low Profile Design**, no Fixtures Required.
- **Maintenance Free**, eliminates the constant need to replace light bulbs and ballasts.
- **Vandal & Vibration Resistant.**
- **Standard & Cut to Fit Custom Sizes**, available in 3" increments to 12'.
- **Superior Cab Illumination**, with even light disbursement, eliminating unsightly light reflections with no LED pixilation or hot spots on most cab interior surfaces.
- **Labor Saving Plug & Play** quick connectors and daisy chain connectability for perimeter & moving walks.
- **Two Year limited warranty**

MULTI-APPLICATION LINEAR LED LIGHTING

OPTIONAL ACCESSORIES

- Dimming Control
- Emergency Lighting - Battery Back Up
- Continuous Run Configurations for perimeter & moving walks.
- Fixed 90-degree corner continuous fixed perimeter lighting.
