

AUTO LIGHT AND FAN CONTROL THE LITEWIZARD™

Environmentally Responsible Elevator Lighting Control Device

Elevator Lighting consumes the majority of electricity in elevator operations as the lights are generally on 24/7. Turning the lights and fans off during unoccupied periods of use can reduce wasteful consumption by 80% or more.

**TURN OFF THE LIGHTS
AND START SAVING TODAY!**

THE LITEWIZARD™ ADVANTAGE

- LiteWizard™ is an **automatic cab lighting control device** designed to exceed ASME elevator code requirements for turning the lights and fans off in an unoccupied elevator.
- The **lights are automatically turned off** when there is no demand for service and automatically turn on upon receiving a demand for service.
- **Universal installation** on any make or model of elevator with interruption of branch lighting circuit.
- **Provides 4 required AMSE inputs** with 2 optional inputs available for accelerometers, motion sensor, phone or panic button signaling. All inputs are isolated.
- **Adjustable timers** for lights out and fan control.
- **Actual return on investment** can be calculated.

**JOIN THE ENVIRONMENTALLY
RESPONSIBLE OWNERS WHO HAVE
INSTALLED LITEWIZARD!**

AMSE Code Compliant device listed to Canadian and US standards by TUV, Certified Product for use in Elevators. Certificate Number: CU 72101368 000
